

SHASHIKANTH PILLALA

Full-Stack Developer

pillalashashikanth1@gmail.com · +91 9618935778 · GitHub: [shashikanth-ui](#) · LinkedIn: [shashikanth8055](#)
Portfolio: [shashikanth-ui](#)

Professional Summary

Results-driven Full-Stack Developer with experience designing, building, and deploying scalable web applications. Proficient in Node.js, React.js, and PostgreSQL, with a proven ability to translate complex requirements into high-performance software solutions and lead in collaborative environments.

Technical Skills

Languages	JavaScript (ES6+), Python, Java, SQL, HTML5, CSS3
Frameworks & Libraries	Node.js, Express.js, EJS, React.js
Databases	PostgreSQL, Firebase
Cloud & DevOps	AWS (EC2, S3), Linux, Git, Docker, REST APIs
Core Concepts	Data Structures & Algorithms, System Design, Object-Oriented Programming (OOP)

Experience

- Full-Stack Web Development Intern** – Prodigy InfoTech Aug 2024 – Sep 2024
- Delivered a feature-rich, full-stack web application from concept to deployment, earning a Letter of Recommendation for exceptional code quality and innovative problem-solving.
- Full-Stack Web Development Intern** – Edunet Foundation / EY GDS Feb 2024 – Apr 2024
- Designed and implemented secure, stateless RESTful APIs using JWT for authentication, and optimized PostgreSQL database schemas, improving data retrieval efficiency for a high-traffic e-commerce platform.
- Software Development Intern** – NIT Warangal Oct 2024 – Nov 2024
- Engineered a dynamic, real-time Freelance Portal by implementing Firebase Authentication and Firestore, enabling secure user management and instantaneous data synchronization.
- Secretary & Publicity Lead** – IEEE Student Branch 2022 – 2024
- Honed leadership and communication skills by co-organizing two national-level events; successfully managed timelines and coordinated with speakers, sponsors, and over 300 delegates.

Projects

- E-commerce Platform** [GitHub](#)
- Engineered a secure, full-featured e-commerce platform with a robust back-end and a dynamic front-end.
 - Technologies:** Node.js, Express.js, PostgreSQL, EJS, Passport.js, Google OAuth2
- Freelance Portal** [GitHub](#)
- Built a real-time, multi-user freelance marketplace featuring skill-based user matching and live messaging.
 - Technologies:** Node.js, Express.js, Firebase (Authentication, Firestore), EJS
- Task Manager Web App** [GitHub](#)
- Architected a full-stack task management application featuring secure user authentication and complete CRUD functionality.
 - Technologies:** Node.js, Express.js, PostgreSQL, EJS, JWT

Education

- B.Tech in Computer Science**, Vaagdevi College of Engineering, Warangal 2021 – 2025
- CGPA: 7.87

Certifications

- AWS Certified Cloud Practitioner – Amazon Web Services
- Full Stack Web Developer – Udemy
- Full-Stack Web Development – Prodigy InfoTech
- Full-Stack Web Development – Edunet Foundation
